Notes:

- For both the Taxable and Tax-Exempt Programs, interest rates will be established at the time of bond pricing.
- All rates assume fully amortizing loans with terms not to exceed 30 years. Adjustments for terms up to 35 years will be made available on a deal by deal basis. Rate locks can normally be executed from 9:00 a.m. to 3:00 p.m., Monday through Friday, with the exception of holidays, bond market closings, and any day on which Virginia Housing offices are closed.
- In the base case, the Construction Interest Rate is applicable from rate lock (taxable) or bond closing (tax-exempt) until 15 months later. The Permanent Interest Rate is effective thereafter. The Construction Rate Period may be extended (or shortened) by adding (or subtracting) the monthly Premium to (or from) the base Permanent Interest Rate for each month added (or subtracted). Such adjustment cannot be made after rate lock. The Permanent Interest Rate will become effective as scheduled, even if permanent conversion is delayed. The Construction Interest Rate Period is not to exceed 24 months and in no case will extend past the first day of the month immediately preceding the first scheduled principal and interest payment.
- For the REACH Program, interest rates are subject to change at least quarterly. For deals under application, contact the assigned Development Officer for more details.
- For construction and permanent loans greater than \$7.5 million, the combined processing and financing fees will be 2% for the first \$7.5 million and 1.125% thereafter.
